## Executive Summary

For over 20 years, People for Education has conducted its Annual Ontario School Survey (AOSS) across Ontario’s publicly funded elementary and secondary schools. For the first time, we are publishing a data handbook to provide a high-level overview of the quantitative data collected in the most recent survey cycle. This overview is primarily comprised of data tables, accompanied by brief descriptive analyses and figures to highlight trends and key findings. It is our hope that sharing these findings will spark questions and ignite conversations across school boards, provinces/territories, Canada, and beyond about the role of public education in building a better future for all.

The 2021–22 AOSS is comprised of responses from 965 school principals across Ontario, representing 70 of Ontario’s 72 publicly funded school boards. The topics covered in the 2021–2022 survey cycle included school staffing, mental health and well-being of students and staff, Indigenous education, equity and anti-racism strategies, child care, and the implementation of de-streaming Grade 9 mathematics.

### Key findings from the 2021–2022 Annual Ontario School Survey

- While 56% of schools reported having a **teacher-librarian**, only 18% of all schools reported having at least one full-time teacher-librarian. Schools in rural areas were more likely to have neither a teacher-librarian nor a library technician.
- Most schools (85%) reported having at least one full-time **special education** teacher. Elementary schools were more likely to report having students waiting for an assessment (93%) than secondary schools (81%).
- 1 in 4 schools reported that there was no **psychologist** available on a regularly scheduled basis, but the majority of schools reported that there was an option to connect virtually to a psychologist (70%) and a social worker (85%).
- Most school principals (68%) reported no **nurse** at their schools.

- The top five challenges faced by principals in light of **COVID-19** were as follows: coordinating staff (90%), space and distancing (83%), health and safety protocols (42%), troubleshooting technology issues (41%), and staff tech knowledge (35%).
- More than half of school principals reported not having the resources necessary to support the **mental health and well-being** of their students and staff.
- More than half of school principals felt that their recent levels of **stress at work** were unmanageable.
- Two thirds of principals (64%) reported their school collected **race-based student demographic data**.
- A higher proportion of elementary schools in high-income areas reported having some form of **on-site child care** (90%), compared to elementary schools in low-income areas (72%). Approximately 1 in 4 elementary school principals in low-income areas (23%) reported no on-site child care for children from pre-kindergarten to Grade 6.
- Only 30% of secondary school principals felt that their schools received sufficient support from the Ministry and school board to **implement de-streaming**.

# Acknowledgements

People for Education is supported by thousands of individual donors, and the work and dedication of hundreds of volunteers. We also receive support from the following funders:

**Margaret McCain**

Every year, principals in schools across Ontario take the time to complete our survey and share their stories with us. This work would not be possible without them.

## A. Introduction

Every year, People for Education (PFE) surveys Ontario’s publicly funded elementary and secondary schools. The 2021–2022 Annual Ontario School Survey (AOSS) is the 25<sup>th</sup> annual survey of elementary schools and 22<sup>nd</sup> annual survey of secondary schools in Ontario. This data handbook provides a high-level overview of the data collected in the 2021–2022 AOSS, and it marks the beginning of an annual series that will publicly report on our survey findings in an effort to ignite conversations about strengthening and transforming the public education system.

Geographic and income analyses were based on population and average median family income data from Statistics Canada and the Ontario Ministry of Education. In this handbook, “rural” refers to schools located in population centres of fewer than 100,000 people and “urban” refers to schools located in population centres of 100,000 people or more. Income analysis involved sorting schools from highest to lowest income based on the weighted family income of the school’s residential postal code. In this handbook, “low-income” refers to schools sorted into the bottom 25% of average family income and “high income” refers to schools in the top 25%.<sup>1</sup>

<sup>1</sup> Only the bottom 25% and top 25% of schools were compared during analysis. This handbook does not report on the middle 50% of schools. Please see [Appendix A: Methodology](#) for more details.

## B. Breakdown of 2021–22 AOSS respondent sample

- The 2021–22 AOSS received 965 responses from principals across Ontario, representing 70 of Ontario’s 72 publicly funded school boards.
- Survey respondents represented approximately one fifth of all publicly funded schools in Ontario. This proportion is consistent across elementary, secondary, English, and French schools.
- In order from highest to lowest number, survey respondents represented schools from all Ontario regions: Greater Toronto Area (41%), Southwestern (20%), Eastern (16%), Northern (13%), and Central (10%).

**Table 1: Breakdown of respondents from the 2021–22 Annual Ontario School Survey**

Breakdown of 2021–22 AOSS respondent sample	All schools	Elementary	Secondary	English	French	Rural <sup>a</sup>	Urban <sup>a</sup>	Low-income <sup>b</sup>	High-income <sup>b</sup>
				(elementary and secondary)		(elementary and secondary)			
# of schools responding	965	795	170	865	100	411	554	237	236
% of schools in province responding	20%	20%	19%	20%	20%	N/A	N/A	N/A	N/A
# of school boards with schools participating in survey	70	68	57	59	11	N/A	N/A	N/A	N/A
% of school boards in province responding	97%	94%	79%	98%	92%	N/A	N/A	N/A	N/A
% of schools in Eastern postal code (K)	16%	15%	19%	14%	33%	22%	11%	12%	17%
% of schools in Southwestern postal code (N)	20%	20%	22%	21%	14%	28%	15%	16%	19%
% of schools in Northern postal code (P)	13%	13%	14%	10%	36%	29%	1%	10%	8%
% of schools in Central postal code (L, minus GTA-L)	10%	10%	12%	11%	3%	10%	10%	5%	9%
% of schools in GTA (Toronto M + L from Central)	41%	42%	33%	44%	14%	12%	62%	57%	49%

(a) “Rural” refers to schools in population centres of fewer than 100,000 people; “urban” refers to schools in population centres of 100,000 people or more.

(b) “Low-income” refers to the bottom 25% of schools based on Weighted Census Family Income (annual income = \$32,604 to \$68,341); “high-income” refers to the top 25% of schools (annual income = \$99,501 to \$219,502).

## C. Staffing

### C1. Vice-principals

- 58% of all schools reported having a vice-principal.
- A vice-principal was much more likely to be reported at a secondary school (91%) than an elementary school (51%).

**Table 2: Proportion of Ontario schools reporting a vice-principal**

Vice-principal availability	All schools	Elementary	Secondary	Rural <sup>a</sup>	Urban <sup>a</sup>	Low-income <sup>b</sup>	High-income <sup>b</sup>
				(elementary and secondary)		(elementary and secondary)	
Any vice-principal	58%	51%	91%	53%	61%	58%	57%
Part-time vice-principal	19%	22%	7%	23%	16%	23%	14%
One full-time vice-principal	24%	24%	23%	18%	28%	25%	25%
More than one full-time vice-principal	15%	5%	61%	12%	17%	10%	17%

(a) "Rural" refers to schools in population centres of fewer than 100,000 people; "urban" refers to schools in population centres of 100,000 people or more.

(b) "Low-income" refers to the bottom 25% of schools based on Weighted Census Family Income (annual income = \$32,604 to \$68,341); "high-income" refers to the top 25% of schools (annual income = \$99,501 to \$219,502).

## c2. Special education teachers

- The majority of schools (85%) reported having at least one full-time special education teacher.
- Elementary schools were more likely to report having students waiting for assessment (93%) than secondary schools (81%).
- A higher proportion of schools in urban areas (92%) reported having at least one full-time special education teacher than schools in rural areas (76%).

**Table 3: Proportion of Ontario schools reporting a special education teacher or assistant**

Special education teacher availability	All schools	Elementary	Secondary	Rural <sup>a</sup>	Urban <sup>a</sup>	Low-income <sup>b</sup>	High-income <sup>b</sup>
				(elementary and secondary)		(elementary and secondary)	
Any special education teacher	98%	98%	98%	97%	99%	99%	97%
Part-time special education teacher	13%	14%	8%	20%	7%	10%	15%
At least one full-time special education teacher	85%	84%	90%	76%	92%	89%	82%
Students waiting for assessment	91%	93%	81%	88%	94%	94%	92%
At least one full-time special education assistant (EA)	87%	87%	86%	92%	83%	83%	87%
Only part-time special education assistant (EA)	7%	8%	4%	1%	12%	13%	8%
No special education assistant (EA)	6%	5%	11%	7%	5%	5%	6%

(a) "Rural" refers to schools in population centres of fewer than 100,000 people; "urban" refers to schools in population centres of 100,000 or more.

(b) "Low-income" refers to the bottom 25% of schools based on Weighted Census Family Income (annual income = \$32,604 to \$68,341); "high-income" refers to the top 25% of schools (annual income = \$99,501 to \$219,502).

### C3. Library staff

- While 56% of all schools reported having a teacher-librarian, only 18% reported having at least one full-time teacher-librarian.
- Only 37% of all schools reported having a library technician (either full-time or part-time).
- 1 in 4 schools in rural areas reported having neither a teacher-librarian nor a library technician. In contrast, 1 in 10 urban schools reported having neither a teacher-librarian nor a library technician.

**Table 4: Proportion of Ontario schools reporting a teacher-librarian and/or library technician**

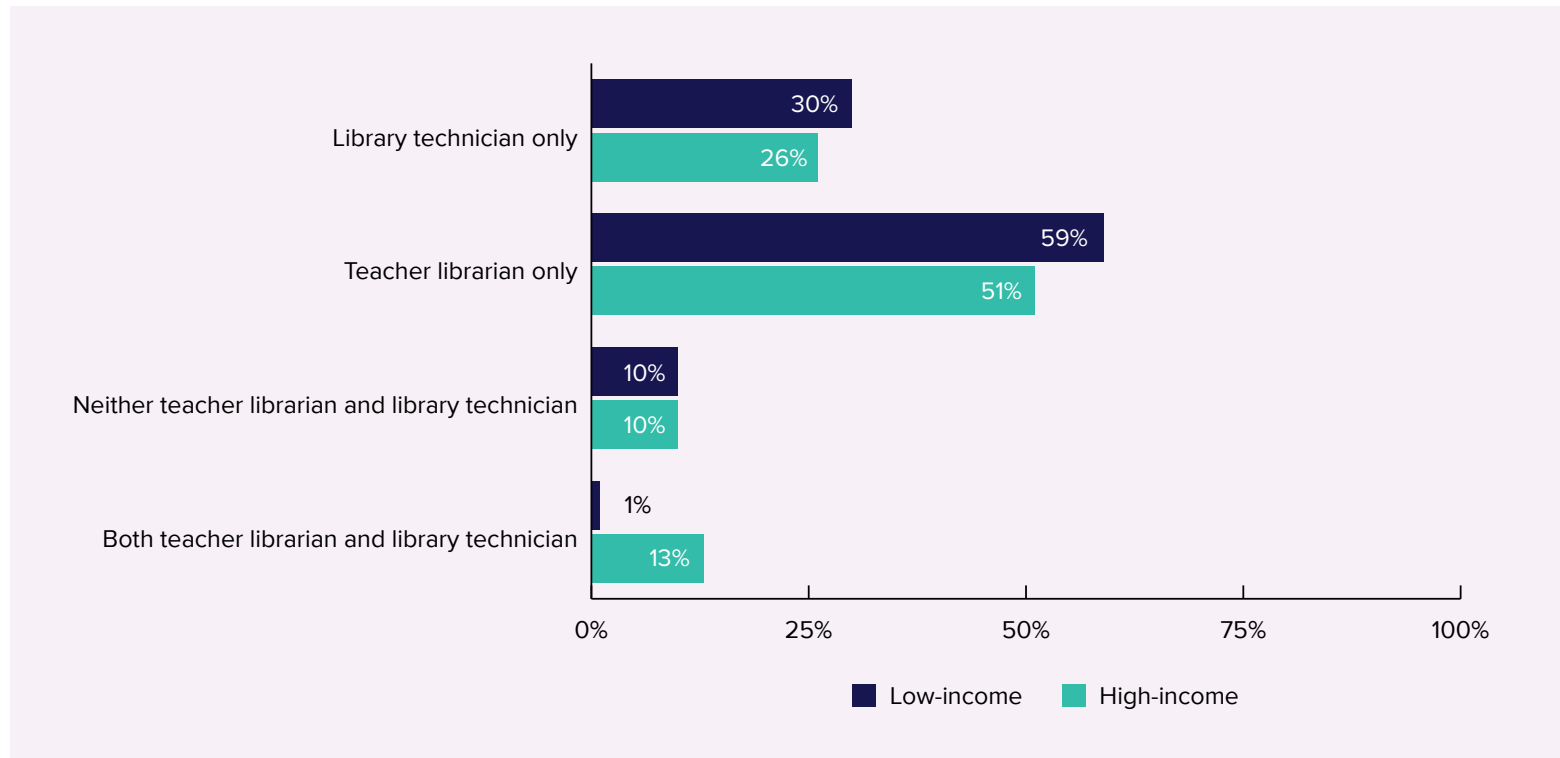

Library staff availability	All schools	Elementary	Secondary	Rural <sup>a</sup>	Urban <sup>a</sup>	Low-income <sup>b</sup>	High-income <sup>b</sup>
				(elementary and secondary)		(elementary and secondary)	
Any teacher-librarian	56%	55%	61%	39%	69%	62%	65%
Part-time teacher-librarian	39%	43%	17%	26%	48%	48%	44%
At least one full-time teacher-librarian	18%	12%	44%	13%	21%	14%	21%
Any library technician	37%	35%	45%	45%	45%	31%	39%
Part-time library technician	25%	27%	14%	32%	20%	23%	25%
At least one full-time library technician	12%	8%	31%	13%	12%	8%	15%
Both teacher-librarian and library technician	7%	4%	22%	7%	8%	1%	13%
Neither teacher-librarian nor library technician	16%	15%	17%	25%	9%	10%	10%
Teacher-librarian only	48%	50%	39%	32%	60%	59%	51%
Library technician only	29%	31%	23%	37%	24%	30%	26%

(a) "Rural" refers to schools in population centres of fewer than 100,000 people; "urban" refers to schools in population centres of 100,000 people or more.

(b) "Low-income" refers to the bottom 25% of schools based on Weighted Census Family Income (annual income = \$32,604 to \$68,341); "high-income" refers to the top 25% of schools (annual income = \$99,501 to \$219,502).

**Figure 1: Availability of library technicians and teacher-librarians in Ontario's publicly funded schools by income**

Source: People for Education's 2021–2022 Annual Ontario School Survey

## C4. Guidance teachers/counsellors

- While most elementary schools reported having less than one full-time guidance teacher/counsellor (98%), most secondary schools reported having more than one full-time guidance teacher/counsellor (73%).

**Table 5: Proportion of Ontario schools reporting a guidance teacher/counsellor**

Guidance teacher/counsellor availability	All schools	Elementary	Secondary	Rural <sup>a</sup>	Urban <sup>a</sup>	Low-income <sup>b</sup>	High-income <sup>b</sup>
				(elementary and secondary)		(elementary and secondary)	
Any guidance teacher/counsellor	32%	18%	94%	33%	31%	26%	32%
Less than one full-time guidance teacher/counsellor	83%	98%	17%	83%	83%	88%	82%
One full-time guidance teacher/counsellor	3%	2%	10%	4%	3%	4%	2%
More than one full-time guidance teacher/counsellor	14%	1%	73%	13%	15%	9%	16%

(a) “Rural” refers to schools in population centres of fewer than 100,000 people; “urban” refers to schools in population centres of 100,000 people or more.

(b) “Low-income” refers to the bottom 25% of schools based on Weighted Census Family Income (annual income = \$32,604 to \$68,341); “high-income” refers to the top 25% of schools (annual income = \$99,501 to \$219,502).

## C5. Professionals and paraprofessionals

- 1 in 4 schools reported that there was no psychologist available.
- More than half of all schools (54%) reported having a regularly scheduled social worker.
- Most schools reported that there was an option to connect virtually to a psychologist (70%) and a social worker (85%).
- More secondary schools (51%) reported having a regularly scheduled youth worker than elementary schools (36%).
- A regularly scheduled mental health/addiction specialist was more commonly reported by secondary schools (30%) than elementary schools (3%).
- The majority of schools (68%) reported having no nurse.

**Table 6: Proportion of Ontario schools reporting professional and paraprofessional support**

Professional and paraprofessional availability	All schools	Elementary	Secondary	Rural <sup>a</sup>	Urban <sup>a</sup>	Low-income <sup>b</sup>	High-income <sup>b</sup>
				(elementary and secondary)		(elementary and secondary)	
Regularly scheduled psychologist	29%	30%	25%	13%	41%	37%	35%
On-call psychologist	46%	46%	48%	48%	46%	46%	46%
No psychologist available	24%	24%	28%	40%	14%	17%	20%
Option to connect virtually to psychologist	71%	71%	68%	57%	80%	78%	75%
Regularly scheduled social worker	54%	49%	80%	40%	64%	64%	51%
On-call social worker	34%	38%	12%	38%	31%	29%	40%
No social worker available	12%	13%	9%	22%	5%	7%	9%
Option to connect virtually to social worker	85%	84%	90%	75%	92%	90%	87%
Regularly scheduled youth worker	39%	36%	51%	38%	40%	39%	40%
On-call youth worker	13%	13%	16%	17%	10%	6%	17%
No youth worker available	48%	51%	34%	45%	50%	55%	43%
Option to connect virtually to youth worker	50%	47%	65%	50%	50%	45%	53%
Regularly scheduled mental health/addiction specialist (incl. MH nurse)	7%	3%	30%	10%	5%	4%	5%
On-call mental health/addiction specialist (incl. MH nurse)	48%	46%	54%	62%	38%	40%	52%
No mental health/addiction specialist (incl. MH nurse)	45%	51%	16%	28%	58%	56%	44%
Option to connect virtually to mental health/addiction specialist (incl. MH nurse)	47%	42%	73%	59%	39%	36%	48%
Regularly scheduled nurse (not incl. MH nurse)	4%	4%	7%	3%	5%	4%	2%
On-call nurse (not incl. MH nurse)	28%	28%	30%	29%	28%	28%	27%
No nurse (not incl. MH nurse)	68%	68%	63%	69%	67%	68%	71%
Option to connect virtually to nurse (not incl. MH nurse)	28%	26%	36%	28%	28%	28%	26%

(a) "Rural" refers to schools in population centres of fewer than 100,000 people; "urban" refers to schools in population centres of 100,000 people or more.

(b) "Low-income" refers to the bottom 25% of schools based on Weighted Census Family Income (annual income = \$32,604 to \$68,341); "high-income" refers to the top 25% of schools (annual income = \$99,501 to \$219,502).

## D. COVID-19 response

For a detailed analysis of 2021–2022 AOSS data related to COVID-19 and its impact on schools see our report: [2021–22 Annual Ontario School Survey: A perfect storm of stress](#).

- Survey respondents were more likely to be responsible for an in-person school (68%) than a hybrid school (30%) or a virtual school (2%).
- Most schools reported that at least some of their student population enrolled in full-time virtual learning (91%).
- The top five challenges faced by schools in light of COVID-19 were as follows: coordinating staff (90%), space and distancing (83%), health and safety protocol (42%), troubleshooting technology issues (41%), and staff tech knowledge (35%).

**Table 7: Proportion of Ontario schools participating in in-person, virtual, or hybrid learning**

Type of learning conducted during COVID-19	All schools	Elementary	Secondary	Rural <sup>a</sup>	Urban <sup>a</sup>	Low-income <sup>b</sup>	High-income <sup>b</sup>
				(elementary and secondary)		(elementary and secondary)	
Responsible for in-person school	68%	71%	57%	78%	61%	59%	70%

## E. Mental health and well-being

- Less than half of all school principals agreed or strongly agreed with the statement, **“My school has the resources necessary to support the mental health and well-being of its students”** (43%).
- Only one third of all school principals agreed or strongly agreed with the statement, **“My school has the resources necessary to support the mental health and well-being of its staff”** (35%).
- Only 29% of all school principals agreed or strongly agreed with the statement, **“My recent levels of stress at work feel manageable,”** while more than half disagreed or strongly disagreed with this statement (51%).

**Table 9: Ontario principals’ perceptions of mental health and well-being resources available to students**

## F. Student leadership

- More than half of all schools reported having a student council or student leadership group (54%).
- 38% of schools reported having no student council or student leadership groups.
- Principals who responded “other” explained that their schools had student leadership activities either in development or on hold due to the pandemic.

**Table 12: Proportion of Ontario schools reporting student leadership activities**

## G. Indigenous education

- The majority of schools reported the availability of professional development on Indigenous education (89%).
- Just over half of all schools reported having Indigenous guest speakers (53%).
- Only 37% of all schools reported having cultural support programs.
- Two thirds of secondary schools (66%) reported offering an Indigenous Studies course at their school.
- Three in five school principals strongly agreed or agreed with the statement, “*Teachers have the support and resources they need to teach students about Indigenous history and culture*” (61%).

**Table 13: Proportion of Ontario schools reporting Indigenous education opportunities available at their school**

# H. Equity and anti-racism

- Two thirds of respondents (64%) reported that their school was collecting race-based demographic data on students. Almost one third (29%) were not sure whether their school was collecting race-based demographic data.
- The majority of respondents (94%) reported that professional development specific to anti-racism and equity was a strategy used by their school to engage in anti-racism and equity work.
- Only 37% of schools reported working in partnerships with community-based organizations dedicated to promoting anti-racism.

**Table 15: Proportion of Ontario schools reporting collection of race-based student demographic data**

# I. On-site child care in elementary schools

- A higher proportion of elementary schools in high-income areas reported having some form of on-site child care (90%) compared to elementary schools in low-income areas (72%).
- Approximately 1 in 4 elementary schools in low-income areas (23%) reported no on-site child care for children from pre-kindergarten to Grade 6.
- Of all elementary schools that have child care programming in their schools, less than half (42%) strongly agreed or agreed with the statement, “Teachers and the on-site child care providers work together to build alignment between the school day and child care programming.”
- One third of elementary schools (34%) that have child care programming disagreed or strongly disagreed with the above statement.

**Table 17: Proportion of Ontario elementary schools reporting on-site early learning and child care**

## J. Implementation of de-streaming Grade 9 mathematics

For a detailed analysis of 2021–2022 AOSS data related to the implementation of de-streaming in Ontario schools, please see our report:

[Timing is everything: The implementation of de-streaming in Ontario’s publicly funded schools.](#)

- 18% of secondary schools reported increased learning supports (e.g. educational assistants, special education supports) for de-streamed courses.
- Secondary schools in high-income areas were more likely to report reduced class sizes for de-streamed courses (63%) compared to secondary schools in low-income areas (38%).
- Only 30% of secondary school principals strongly agreed or agreed with the statement, “*My school staff and I have received sufficient support from the Ministry and my school board to implement de-streaming.*” In contrast, 42% of secondary school principals disagreed or strongly disagreed with this statement.
- Approximately one third of secondary schools (35%) reported de-streaming other courses in addition to Grade 9 mathematics.

**Table 19: Supports and resources offered for de-streamed courses in Ontario’s publicly funded secondary schools**

De-streaming supports (secondary schools only)	Secondary	Rural <sup>a</sup>	Urban <sup>a</sup>	Low-income <sup>b</sup>	High-income <sup>b</sup>
		(secondary only)		(secondary only)

## Appendix A: Methodology

This report is based on data from the 965 schools that participated in the Annual Ontario School Survey 2021–22. Longitudinal data comparisons are based on the data collected from the elementary and secondary schools that participated in PFE’s AOSS 2019–20 and 2020–21. Unless cited from other sources, the statistics and quoted material in this report originate from PFE’s AOSS, the 25<sup>th</sup> annual survey of elementary schools, and the 22<sup>nd</sup> annual survey of secondary schools in Ontario. Surveys from 2021–22 AOSS were completed online via SurveyMonkey in both English and French between October 19, 2021, and January 17, 2022.

Survey responses were disaggregated to examine survey representation across provincial regions (see Table 23). Schools were sorted into geographical regions based on the first letter of their postal code. The GTA region includes schools with M postal codes as well as those with L postal codes located in GTA municipalities (City of Toronto n.d.). Regional representation in this year’s survey corresponds relatively well with the regional distribution of Ontario’s publicly funded schools.

**Table 23: Survey response representation by region, all schools**

Region (by postal code)	Percentage of schools in sample	Percentage of schools in province
Northern (P)	13%	11%
Central (L excl. GTA)	10%	11%
Eastern (K)	16%	18%
Southwestern (N)	20%	20%
GTA	41%	40%

In order to analyze a school’s geographical circumstances, each school’s postal code was used to identify the population of the town or city in which the school is located, based on 2021 Census data. Statistics Canada uses population size to classify a population centre as small, medium, or large urban. The population breakdown is as follows: small population centres have a population between 1,000 and 29,999, medium population centres have a population between 30,000 and 99,999, and large urban population centres have a population of 100,000 or more (Statistics Canada 2021). While Statistics Canada has various definitions of a rural area, for the purposes of this analysis, a rural area

has a population under 1,000. In order to conduct data analysis with an adequate sample size, schools in rural, small, and medium areas (all schools:  $n = 411$ ; elementary schools only:  $n = 337$ ; secondary schools only:  $n = 83$ ) were compared against schools in large urban areas (all schools:  $n = 554$ ; elementary schools only:  $n = 458$ ; secondary schools only:  $n = 101$ ), unless otherwise specified. Therefore, in this report, “rural” refers to schools that are located in population centres of fewer than 100,000 people, whereas “urban” refers to schools located in population centres of 100,000 people or more.

During analysis, data collected from the survey were matched with the Weighted Average Median Census Family Income by School, 2017–2018, which was provided to PFE through a Request for Information from the Ontario Ministry of Education’s Education Statistics and Analysis Branch. The Median Census Family Income information was derived from the 2016 census for all the dissemination areas associated with a school based on its students’ weighted enrolment by residential postal code. Schools were then sorted from highest to lowest income based on this measure. In this report, the top 25% of schools based on Weighted Census Family Income are considered “high-income” (all schools:  $n = 236$ , average income = \$116,664; elementary schools only:  $n = 195$ , average income = \$117,305; secondary schools only:  $n = 44$ , average income = \$112,492) and the bottom 25% are considered “low-income” (all schools:  $n = 237$ , average income = \$57,851; elementary schools only:  $n = 196$ , average income = \$56,718; secondary schools only:  $n = 44$ , average income = \$64,596), unless otherwise specified.

Qualitative data analysis was conducted using inductive analysis. Researchers read responses and coded emergent themes in each set of data (i.e. the responses to each of the survey’s open-ended questions). The quantitative analyses in this report are based on descriptive statistics. The primary objective of the descriptive analyses is to present numerical information in a format that is accessible to a broad public readership. All data were analyzed using SPSS statistical software. All calculations have been rounded to the nearest whole number and may not total 100% in displays of disaggregated categories. All survey responses and data are kept confidential and stored in conjunction with Tri-Council recommendations for the safeguarding of data.

For questions about the methodology used in this report, please contact the research team at PFE: [aoss@peopleforeducation.ca](mailto:aoss@peopleforeducation.ca).

# Appendix C: 2021/2022 Annual Ontario School Survey

People for Education is a champion of publicly funded education – instigating dialogue and research to make the connection between strong education and a fair and prosperous society.

This survey should take about 15 minutes to complete.

Please note that the questions on this survey reflect the 2021/22 school year unless otherwise noted.

Please submit the survey by **December 7, 2021**.

If you have any questions about the survey, contact [aoss@peopleforeducation.ca](mailto:aoss@peopleforeducation.ca) or visit our survey FAQ [here](#).

Individual school responses will remain confidential. Only overall results will be published.

## 1. SCHOOL OVERVIEW

School name: \_\_\_\_\_ \*

School board: \_\_\_\_\_ \*

School phone number (in the form of xxx-xxx-xxxx)\*: \_\_\_\_\_

MIDENT (6-digit school identification number) (optional): \_\_\_\_\_

Principal email address: \_\_\_\_\_

### *Why are we asking this information?*

Your email will only be used to remove you from our contact lists, so that you don't receive follow-up reminder emails once you have completed the survey.

### Which option best describes your school?\*

- Elementary school
- Elementary and secondary school
- Secondary school

**Which type of school are you currently responsible for?\***

- In-person
- Virtual
- Hybrid (Virtual & in-person)

**Approximately, what proportion of your student population is enrolled in full-time virtual learning?**

- Slider scale 0-100

**Approximately, what proportion of your teachers are teaching hybrid learning? (i.e., simultaneously delivering instruction to in-person and virtual students)**

- Slider scale 0-100

**Since the beginning of the school year, how many classes in your school have had to shift to remote learning due to a confirmed positive COVID-19 case? # \_\_\_\_\_**

**Please describe any successes or challenges with managing virtual and/or hybrid learning:**

---

---

## **2. COVID-19 LEARNING**

**Please select which of the following challenges you are currently facing at your school in light of COVID-19. Select all that apply:**

- Space & distancing
- Staff tech knowledge
- Coordinating staffing (e.g., any school staff absences, finding coverage, moving between in-person & virtual, supervision)
- Health & safety protocols (e.g., PPE, cleaning supplies, testing, self-screening)
- Ventilation

- Scheduling courses
- Troubleshooting technology issues
- Communication with parents or staff
- Managing student enrolment
- Other (please specify):
- None

**What resources or strategies might help your school better manage the challenges caused by COVID-19?**

---

---

### 3. STAFFING

Where questions refer to FTE, please tell us the total number of staff positions, counted in full-time equivalents (FTEs). For example, one full-time or two half-time positions equal 1.0 FTE; if a person works 4 days a week, this equals 0.8 FTE; a half-time position equals 0.5 FTE; one day a week equals 0.2 FTE, etc.

Total teacher FTE: \_\_\_\_\_

Total vice-principal FTE: \_\_\_\_\_

Total teacher-librarian FTE: \_\_\_\_\_

Total library-technician FTE: \_\_\_\_\_

Total guidance counsellor FTE: \_\_\_\_\_

### 4. SPECIAL EDUCATION

**Special education teacher** Total FTE: \_\_\_\_\_

**Special education assistant (EA)** Total FTE: \_\_\_\_\_

**Total number of students who receive any special education support:** # \_\_\_\_\_

**How many students are currently waiting for assessment?** # \_\_\_\_\_ **for IPRC?** # \_\_\_\_\_ **for placement?** # \_\_\_\_\_

**If you have students waiting for assessment, do they have IEPs?**

Yes  No

**Are they receiving special education support?**

Yes  No

**Is there a restriction on the number of students who can be assessed per year?**

Yes  No

**If yes, how many students are eligible for assessment per year? # \_\_\_\_\_**

**Please describe any successes or challenges with special education at your school:**

---

---

## 5. MENTAL HEALTH AND WELL-BEING

For each of the following, please indicate the situation that applies to your school:

	On-call	Regularly scheduled	Not available	Option to connect virtually	
Psychologist	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>
Social worker	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>
Child and youth worker	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>
Mental health and addictions specialists (including mental health nurses)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>
Nurse (not including mental health nurses)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>
Other regularly scheduled professional or paraprofessional (please specify)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>

**Additional comments:**

---

**Please select the mental health and well-being supports available at your school in-person or virtually:**

- Teaching materials (e.g., lesson plans, books, activity guides)
- Professional development for staff (e.g., workshops, webinars, training, conferences)
- Collaborations with local mental health organizations (e.g., School Mental Health Ontario, Kids Help Phone, CAMH, etc.)
- In-school quiet space (e.g., calming room)
- Other (please specify) \_\_\_\_\_

**Please answer the following questions related to the mental health and well-being resources at your school:**

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
My school has the resources necessary to support the mental health and well-being of its <b>students</b> .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My school has the resources necessary to support the mental health and well-being of its <b>staff</b> .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My recent levels of stress at work feel manageable.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Please describe any successes or challenges in relation to supporting student and/or staff mental health: \_\_\_\_\_

---

---

## 6. ANTI-RACISM & EQUITY

**Has your board collected race-based and/or demographic student data?**

- Yes  No  Not sure

**If yes, how is your school using the data?** \_\_\_\_\_

**Has your school undertaken any of the following strategies to engage in work on anti-racism and equity?**

- Professional development specific to anti-racism and equity
- Partnerships with community-based organizations dedicated to promoting anti-racism
- Updating and reviewing teaching resources and practices to ensure inclusive and equitable content and representations
- Updating and reviewing library materials to remove racist or discriminatory content and/or to increase equitable and diverse content
- Development and implementation of a school-wide policy on anti-racism and equity
- Focus on anti-racism and equity in School Improvement Plan
- None
- Other (please specify): \_\_\_\_\_

**Please describe any successes or challenges with equity and anti-racism initiatives at your school:**

## 7. INDIGENOUS EDUCATION

**Please indicate the Indigenous education opportunities that are offered at your school:**

- Staff professional development
- Cultural support programs
- Indigenous languages programs
- Indigenous guest speakers
- Indigenous studies course (secondary only)
- Consultation with Indigenous community organizations about educational priorities
- Ceremonies

No Indigenous education opportunities available

Other: \_\_\_\_\_

**Please answer the following questions regarding Indigenous education at your school:**

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
Teachers have the support and resources they need to teach students about Indigenous history and culture	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Please describe any successes or challenges with Indigenous education at your school:**

---

---

## 8. STUDENT LEADERSHIP

**Does your school have a student council or student leadership group?**

Yes  No  Other: \_\_\_\_\_

## 9 A. EARLY LEARNING AND CHILD CARE (ELCC) PROGRAMMING (ELEMENTARY ONLY)

Does your school offer child care and/or extended day programs on school grounds?

Yes  No

Select the **age groups** for which your school offers early learning/child care or extended day programs (i.e., before and after school programs).

- Preschool (18 months-4 years)
- Kindergarten
- Grades 1-6
- None of the above

Please answer the following questions regarding the role of early learning and child care programs in the publicly funded education system.

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	N/A – No ELCC programs on school grounds
Teachers and the on-site child care providers work together to build alignment between the school day and childcare programming.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Please describe any successes and challenges in relation to early learning and child care programs in your school:

---

---

### 9 B. DE-STREAMING (SECONDARY ONLY)

Has your school de-streamed any courses in addition to grade 9 mathematics?

- Yes  No

If yes, please list the other de-streamed courses: \_\_\_\_\_

**Is your school offering any of the following? Select all that apply.**

- Reducing class sizes for de-streamed courses
- Teacher training/Professional development on de-streaming
- Resources for parents/guardians about de-streaming
- Increase in learning supports (e.g., educational assistants, special education supports)
- None
- Other (please specify): \_\_\_\_\_

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
My school staff and I have received sufficient support from the Ministry and my school board to implement de-streaming.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Please describe any successes or challenges with de-streaming courses at your school:**

---

---

## 10. PRINCIPAL BACKGROUND

**As part of our ongoing commitment to equity in our research, we would like to know more about principals' racial and gender identities.**

**“In our society, people are often described by their race or racial background. For example, some people are considered “White” or “Black” or “East/Southeast Asian,” etc.**

**Which race category best describes you? Select all that apply.”**

- Black (e.g., African, Afro-Caribbean, African-Canadian descent)
- East Asian (e.g., Chinese, Korean, Japanese, Taiwanese descent)

- Indigenous (e.g., First Nations, Métis, Inuit descent)
- Latino/Latina/Latinx (e.g., Latin American, Brazilian, Mexican, Cuban, Chilean descent)
- Middle Eastern (e.g., Arab, Persian, West Asian descent, e.g., Afghan, Egyptian, Iranian, Lebanese, Turkish, Kurdish, etc.)
- South Asian (e.g., South Asian descent, e.g., East Indian, Pakistani, Bangladeshi, Sri Lankan, Indo-Caribbean, etc.)
- Southeast Asian (e.g., Filipino, Vietnamese, Cambodian, Thai, Indonesian, other Southeast Asian descent)
- White (e.g., English, Italian, German, European descent)
- Not listed above, please describe

**What is your gender identity? (Select all that apply)**

- Man
- Woman
- Genderqueer
- Trans man
- Trans woman
- ThirdGender
- Gender-Neutral
- Two-spirit
- Genderfluid
- Gender Non-confirming
- Non-Binary
- Questioning
- Gender identity(ies) not listed above, please specify:

**11. ADDITIONAL COMMENTS**

**Is there anything more you want to add or tell us about your school? What are the major successes and/or challenges in your school?**

---

---

**I would like to be updated about the findings from this survey:**

Yes  No

If yes, please provide your email address: \_\_\_\_\_
